

किसानों की सफलता ही  
हमारा पुरस्कार है,  
किसानों को नवीनतम  
तकनीक से फायदा  
पहुँचाना हमारा उद्देश्य है!

**Krishidhaan Biocare Pvt. Ltd.**

AN ISO 9001:2008 Certified Company

# KBC Cropcare

## Plant Growth Promoter

It is a rich combination of essential Vitamins, Natural growth promoters, Enzymes etc. required for faster plant growth and high yield by better flowering & fruit development.

### Mode of Action

- It helps in vegetative and reproductive growth.
- It enhances stomatal growth & chlorophyll synthesis.
- Increase in the size and weight of Vegetable, Grains & fruits.
- Provide Higher yield and better quality of the produce.

**Packing:** 1ltr. 500ml, 250ml.

# KBC Triczo

## Triazophos 40% EC

**Description:** 1. Insecticide with contact and stomach action  
2. Non systemic but penetrates deeply into plant tissues, translocational action.

**Target crops:** Paddy, vegetables, cotton, soyabean, sugarcane etc.

**Packing:** 1ltr., 500ml.

# KBC Surksha

## Chlorpyrifos 20% EC

**Description:** It is a non-systemic insecticide which is used for various crops.

**Target crops:** Cereals, pulses, sugarcane, soyabean, gram, cotton etc.

**Target Insect:** Residual, Broad Spectrum, Termites.

**Packing:** 1ltr., 500ml., 250ml.

## KBC Star

Lambdacyhlothrins 4.9% CS

**Description:** 1. Control white spectrum of insect & pests.  
2. Provide good control of insect borne plant virus.

**Target crops:** Vegetables, soyabean, cotton etc.

**Packing:** 1ltr., 500ml., 250ml.

## KBC Super 7+

Profenofos 40%

**Description:** KBC Super 7+ is a combination product for the control of bollworm product for the control of bollworm insecticides. It has strong contact stomach & ovicidal action series. It is the wide spectrum insecticide with easy bio-degradation and high bio-activity for antitoxic pests.

**Target crops:** Vegetable, soyabean, cotton, sugarcane etc.

**Packing:** 1ltr., 500ml., 250ml.

## KBC Blast

Cypermethrin 25% EC

**Description:** 1. Control white spectrum of insect & pests.  
2. Provide good control of insect borne plant virus.

**Target crops:** Vegetable, soyabean, cotton etc.

**Packing:** 1ltr., 500ml., 250ml.

## KBC Thiamax

Thiamethoxam 25% WP

**Description:** Thiamethoxam 25% WP.

**Target Pest:** Stemborer, gall midge, leaf folder, brown plant hopper, white backed, plant hopper, green leaf hopper.

**Target crops:** Paddy, cotton, chilli, mango, mustard, okra, tomato, brinjal, wheat, potato, citrus & tea.

**Packing:** 500ml., 250ml.

## KBC Barood

Emamectin Benzoate 5% SG

**Description:** It is good for controlling lepidoptera such as bollworms in cotton and fruit and shoot borers in okra. Emamectin is a nonsystemic insecticide which penetrates leaf us used by translaminar movement.

**Target crops:** Cotton, okra, gram, fruits and vegetables, soyabean etc.

**Target pest:** Black hoppers, Green hoppers etc.

**Packing:** 500g, 250g, 100g.

## KBC Propizone

Propiconazole 25% EC

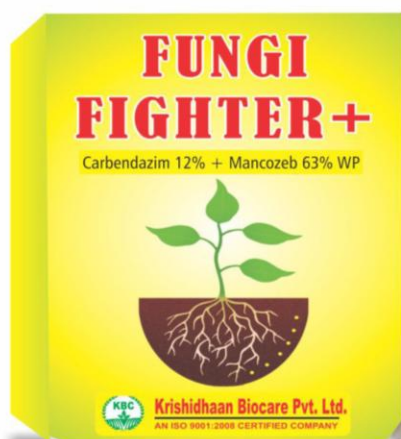

**Description:** It is broad spectrum highly systemic fungicide used for controlling deadly disease like paddy, sheath blight.

**Target crops:** Vegetable, soyabean, cotton, wheat, gram, chilli, paddy etc.

**Target Pests:** Rust, bunt, black dirty, grains etc.

**Packing:** 500ml., 250ml.

## KBC Fungi Fighter

Carbendazim 12% + Mancozeb 63% WP

**Description:** It is a systematic and contact fungicides with strong and curative action & It is a combination product of carbendazim, a benzimidazole and mancozeb, dithiocarbamate group of fungicides.

**Packing:** 1Kg, 500g, 250g.

## KBC Cartap 4G

Cartap hydrochloride 4% GR

**Description:** Its lethal mode of action & highly effective against both chewing and sucking pests.

**Target crops:** sugarcane, cotton, soyabean, potato, maize, paddy etc.

**Target pest:** Whitefly, Jassid.

**Packing:** 5kg., 1kg.

## KBC Killer

Bio Pesticide

KBC Killer effectively controls the economically important pests of crops such as leaf hoppers, root grubs, borers, cutworms, termites, palm weevils. KBC Killer help to increase productivity by improving the crop health through containing the pests. KBC Killer does not affect the natural enemies of the pest. KBC Killer is safe to beneficial parasites and beneficial predators and thus offers long lasting pest control.

**Dose:** 15-20ml per pump.

**Packing:** 250ml, 100ml.

## KBC Baazigar

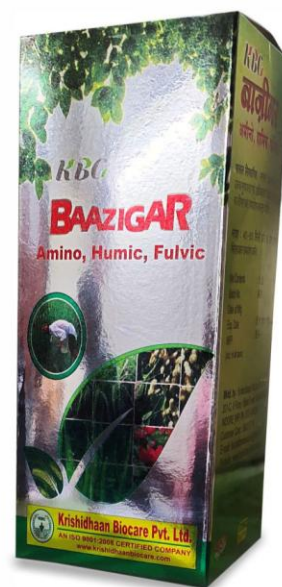

Amino, Humic, Fulvic

It is balanced nutrient formulation for overall healthy & bumper crops for foliar applications. KBC Baazigar is combination of selected Amino & Humic Acids, Vitamins, Proteins, Enzymes, Carbohydrates & Trace elements and is suitable for vegetative and reproductive growth of all crops.

**Benefits:** • KBC Baazigar helps faster plant growth and better yield by better flowering & fruit development. • It increases in the size and weight of the Grains/Fruits/Vegetables. • Early flowering on Fruits & Vegetables. • It improves disease resistance to crops.

**Dose:** 30 to 40ml per pump.

**Packing:** 1ltr. 500ml.

## KBC Dhoom

Humic 12%

KBC Dhoom 12% Humic based product. balanced nutrient formulation for overall healthy & bumper crops for foliar applications. KBC Dhoom is combination of selected Humic Acids, Vitamins, Proteins, Enzymes, Trace elements and is suitable for vegetative and reproductive growth of all crops.

**Benefits:** • KBC Dhoom helps faster plant growth and better yield by better flowering & fruit development. • It increases in the size and weight of the Grains/Fruits/Vegetables. • Early flowering on Fruits & Vegetables. • It improves disease resistance to crops.

**Dose:** 40 to 50ml. per 15 liter of water.

**Packing:** 1ltr., 500ml.

## KBC Gold

Zyme

KBC GOLD useful for the seed germination and also useful for the development of white roots of the plant in a better and healthy way. It is helpful for the chlorophyll formulation utilizations due to use of Krishidhaan Gold. It helps the plant to utilized up take of minerals and micronutrients with though roots. It may be help the plant to develop completely. It also helpful for the better yield and quality yield. It is also very helpful for to maintain the fertility of soil. Recommended for all crops in Agriculture, Horticulture, Floriculture and Nursery also.

**Dose:** 10 Kg. per Acre.

**Packing:** 50kg. drum, 10kg. bucket, 10kg. bag.

## KBC Bhu Power

### Powerful Organic Fertilizer

KBC Bhu Power is zypsam & Humic Fulvic based powder. An excellent & powerful Soil conditioner organic product in powder form for faster overall growth, better yield & better quality of agricultural produce.

**Mode of Action:** • Increases root respiration and development. • Increases availability of micro-nutrients, photosynthesis in plants & stimulates plant enzymes. • Provide plants with necessary vitamins , amino acids and peptides. • It also largely saves energy for plant synthesis. • It helps to repair damaged tissues & cells thereby increases the size and weight of the Fruits, Vegetables & Grains to give higher yield and better quality of the Agricultural produce.

**Dose:** 1 to 2 Bag per acre. Use in all crops.

**Packaging:** 40 Kg.

## KBC Bahubali

### Organic Fertilizer (Granule)

KBC Bahubali Phosphate Rich Organic Manure (PROM) & Micro nutrient, CMS based fertilizers. This is complete plant food.

Description: 1. KBC Bahubali is useful as a soil additive, conditioner and fertilizer.

#### Mode of Action

• Increases root respiration and formation. • Increases availability of micro-nutrients. • Increases photosynthesis in plants. • Increases water holding capacity & Stimulates plant enzymes, as such increases crop yield and quality of produces.

**Dose:** 50kg. per acre. Use in all crops.

**Packing:** 50 Kg.

## KBC Green Tree

### Humic Shining Ball

Green Tree is a soil application form for all types fo soil.

**Mode of Action:** • Increases root respiration and formation. • Increases availability of micro-nutrients. • Increases photosynthesis in plants. • Increases water holding capacity & Stimulates plant enzymes, as such increases crop yield and quality of produces.

**Dose:** 2 Kg. per acre. Use in all crops.

**Packaging:** 2 Kg. Bucket.

## KBC Sticker

### Chipko

It is non-ionic, water soluble Super Wetting and Spreading Agent. It increases spray coverage area, wetting & penetration of agricultural chemicals in waxy leaves of plants, by reducing surface tension. It results reduction in spray volume and increase in its efficiency by 20-25% at very low dose.

**Mode of Action:** • Lowers Surface Tension: So that the spray solution is retained on the leaves and does not fall off in the form of droplets. • Improve spray coverage: Spreads the spray solution on the total surface area of the leaves thus reducing the volume of spray solution required. • It helps agro chemical formulations to penetrate & absorbed by the leaf from pores. • Compatibility with most Agrochemical Formulations.

**Dose:** 25 to 30ml. per pump.

**Packing:** 1Ltr. 500ml. 250ml.

## KBC Milk Grow +

### Chelated

Calcium suspension with herbal extract of jiwanti, shatawari and chelated mineral zinc, cobalt. Increases Intestinal absorption

#### Benefits:

- Improve milk yield
- Stimulation of Hormones
- To improve the conception rate
- Early onset as ovulatory oestrus
- Higher Milk production with increases fat percentage
- Early Maturity in heifers

**Dose:** 100gm. per day.

**Packing:** 5 Ltr.

# KBC ASARDAR

## NPK 13:00:45

**Description:** NPK 13:00:45 Potassium Nitrate (KNO<sub>3</sub>) is a natural occurring mineral source of nitrogen. This enhances its application as a fertilizer to provide the soil sample amount of nitrogen.

**Packing:** 25kg., 1kg.

## NPK 00:00:50

**Description:** NPK 00:00:50 Potassium Nitrate (KNO<sub>3</sub>) is a natural occurring mineral source of nitrogen. This enhances its application as a fertilizer to provide the soil sample amount of nitrogen.

**Packing:** 25kg., 1kg.

## NPK 12:00:50

**Description:** NPK 12:00:50 Potassium Nitrate (KNO<sub>3</sub>) is a natural occurring mineral source of nitrogen. This enhances its application as a fertilizer to provide the soil sample amount of nitrogen.

**Packing:** 25kg., 1kg.

## NPK 19:19:19

**Description:** We offer premium quality NPK 19:19:19 water soluble fertilizer which contain ingredients such as nitrogen, phosphorous and potassium. Our water soluble fertilizers are appropriate for improving soil fertility.

**Packing:** 25kg., 1kg.

## NPK 00:52:34

**Description:** Mono Potassium phosphate (also known as also potassium dihydrogen phosphate, KDP, or monobasic potassium phosphate, MPK) is food additive & fungicide apart from fertilizer. It also acts as a buffering agent.

**Packing:** 25kg., 1kg.

## NPK 12:61:00

**Description:** NPK 12:61:00 Potassium Nitrate (KNO<sub>3</sub>) is a natural occurring mineral source of nitrogen. This enhances its application as a fertilizer to provide the soil sample amount of nitrogen.

**Packing:** 25kg., 1kg.
